NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory financial statements of Coventry Health Care of Kansas, Inc. ("the Company"), indirectly a wholly-owned subsidiary of CVS Health Corporation ("CVS Health"), have been prepared in conformity with accounting practices prescribed or permitted by the Kansas Insurance Department ("Kansas Department") ("Kansas Accounting Practices"). The Kansas Department recognizes only statutory accounting practices prescribed or permitted by the State of Kansas for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP").

A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the State of Kansas for the periods ended September 30, 2019 and December 31, 2018 is as follows:

	SSAP #	F/S Page	F/S Line #	2019	2018

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with Kansas Accounting Practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues and expenses. Actual results could differ from those estimates.

C. Accounting Policies

The Company applies the following significant accounting policies:

(1) No significant change.

(2) Bonds:

Bonds, which include special deposits, are carried at amortized cost except for those bonds with an NAIC designation of 3 through 6, which are carried at the lower of amortized cost or fair value. The amount carried at fair value is not material to the financial statements. Bond premiums and discounts are amortized using the scientific interest method. When quoted prices in active markets for identical assets are available, the Company uses these quoted market prices to determine the fair value of bonds. This is used primarily for U.S. government securities. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, the Company estimates fair values using valuation methodologies based on available and observable market information or by using a matrix pricing model. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial

performance and cash flow projections. The Company had no investments where fair value was determined using broker quotes or an internal analysis of financial performance and cash flow projections. Bonds include all investments whose maturity is greater than one year when purchased. Loan-backed and structured securities are carried at amortized cost adjusted for unamortized premiums and discounts. Premiums and discounts on loan-backed and structured securities are amortized using the interest method over the estimated remaining term of the securities, adjusted for anticipated prepayments. All adjustments between amortized cost and carrying value are reflected in unrealized capital gains and losses and are reported as direct adjustments to surplus. Bonds are recorded as purchases or sales on the trade date.

The Company periodically reviews its bonds to determine whether a decline in fair value below the carrying value is other-than-temporary. For bonds, other than loan-backed and structured securities, an other-than-temporary impairment ("OTTI") shall be recorded if it is probable that the Company will be unable to collect all amounts due according to the contractual terms in effect at the date of acquisition. Declines deemed to be OTTI in the cost basis are recognized as realized capital losses. Yield-related impairments are deemed other-than-temporary when the Company intends to sell an investment at the reporting date before recovery of the cost of the investment.

For loan-backed and structured securities, the Company records OTTI when the fair value of the loan-backed or structured security is less than the amortized cost basis at the balance sheet date and (1) the Company intends to sell the investment, or (2) the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost basis, or (3) the Company does not expect to recover the entire amortized cost basis of the security, even if it does not intend to sell the security and has the intent and ability to hold. If it is determined an OTTI has occurred because of (1) or (2), the amount of the OTTI is equal to the difference between the amortized cost and the fair value of the security at the balance sheet date and this difference is recorded as a realized capital loss. If it is determined an OTTI has occurred because of (3), the amount of the OTTI is equal to the difference between the amortized cost and the present value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate and this difference is also accounted for as a realized capital loss.

The Company analyzes all relevant facts and circumstances for each investment when performing its analysis to determine whether an OTTI exists. Among the factors considered in evaluating whether a decline is other-than-temporary, management considers whether the decline in fair value results from a change in the quality of the investment security itself, whether the decline results from a downward movement in the market as a whole, the prospects for realizing the carrying value of the bond based on the investee's current and short-term prospects for recovery and other factors. The risks inherent in assessing the impairment of an investment include the risk that market factors may differ from the Company's expectations and the risk that facts and circumstances factored into its assessment may change with the passage of time. Unexpected changes to market factors and circumstances that were not present in past reporting periods may result in a current period decision to sell securities that were not other-than-temporarily-impaired in prior reporting periods.

(3) through (21): No significant change.

D. Going Concern

As of November 14, 2019, management has evaluated whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern and management has determined that it is not probable that the Company will be unable to meet its obligations as they become due within one year after the financial statements are available to be issued. Management will continuously evaluate the Company's ability to continue as a going concern and will take appropriate action and will make appropriate disclosures if there is any change in any condition or events that would raise substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

The Company did not have any accounting changes or corrections of errors in the period ended September 30, 2019.

3. Business Combinations and Goodwill

No significant change.

20. Fair Value Measurements

A. and B.

The Company had no material assets or liabilities measured and reported at fair value at September 30, 2019.

Certain of the Company's financial instruments are measured at fair value in the financial statements. The fair values of these instruments are based on valuations that include inputs that can be classified within one of three levels of a hierarchy established by U.S. generally accepted accounting principles. The following are the levels of the hierarchy and a brief description of the type of valuation information ("inputs") that qualifies a financial asset or liability for each level:

**Level 1** - Unadjusted quoted prices for identical assets or liabilities in active markets.

**Level 2** - Inputs other than Level 1 that are based on observable market data. These include quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates and credit risks) and inputs that are derived from or corroborated by observable markets.

**Level 3** - Developed from unobservable data, reflecting our own assumptions.

Financial assets and liabilities are classified based upon the lowest level of input that is significant to the valuation. When quoted prices in active markets for identical assets and liabilities are available, the Company uses these quoted market prices to determine the fair value of financial assets and liabilities and classify these assets and liabilities as Level 1. In other cases where a quoted market price for identical assets and liabilities in an active market is either not available or not observable, the Company estimates fair value using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets and liabilities would then be classified as Level 2. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. Thus, financial assets and liabilities may be classified in Level 3 even though there may be some significant inputs that may be observable.

C. The carrying values and estimated fair values of the Company's financial instruments at September 30, 2019 were as follows:

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, Short Term, and Cash Equivalents	\$12,401,248	\$11,927,382	\$1,812,475	\$10,588,773	\$—	\$—	\$—

There were no material realized and unrealized capital gains, purchases, sales, settlements, or transfers into or out of the Company's Level 3 financial assets at September 30, 2019. There were no transfers between the Company's Level 1 or 2 financial assets at September 30, 2019.

In evaluating the Company's management of interest rate and liquidity risk and currency exposures, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

D. The Company did not have any financial instruments where it was not practicable to estimate the fair value.  
E. The Company has not elected to use the net asset value practical expedient to fair value to measure its investments.

21. Other Items

A. and B. No significant change.

C. Other Disclosures

Pursuant to State of Kansas statute, there are standards, either singly or a combination of two or more, that if companies do not adhere to they can be considered by the Kansas Insurance Department to be hazardous to policyholders, creditors or the public in general ("hazardous condition"). At September 30, 2019, the Company did not meet all the standards necessary to not be considered in hazardous condition.

D. through H: No significant change.

22. Events Subsequent

A. Type I - Recognized Subsequent Events

Subsequent events have been considered through November 14, 2019 for the statutory statement issued on November 14, 2019.

The Company had no known reportable recognized subsequent events.

25. Change in incurred claims and claims adjustment expense

A. Reserves as of December 31, 2018 were \$667,804. As of September 30, 2019, \$320,525 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$178,113 as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$169,166 favorable prior-year development since December 31, 2018 to September 30, 2019. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this decrease, the Company experienced \$0 prior year claim development on retrospectively rated policies. However, the business to which it relates is subject to premium adjustments.

B. There has been no significant change in the Company's methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses.

26. Intercompany Pooling Arrangements

No significant change.

27. Structured Settlements

No significant change.

28. Health Care Receivables

No significant change.

29. Participating Policies
